The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/687,848	Applicant(s) GINN, RICHARD S.	
	Examiner MELANIE TYSON	Art Unit 3773	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is in response to the applicant's amendment received 07 October 2010. The amendments made to the claims do not place the application in condition for allowance for the reasons set forth below. Claims 2, 4, 6, 8, 10, and 12 remain cancelled. Claims 5 and 7 remain withdrawn from consideration.

Response to Arguments

Applicant's arguments with respect to claims 1, 3, 9, and 11 have been fully considered but they are not persuasive. The applicant argues that Kensey fails to disclose any attachment between the elongate member and occlusion member as now required by amended claim 1. The examiner respectfully disagrees. Kensey discloses an attachment (52) between the elongate member and occlusion member. The attachment releases from the elongate member with the occlusive member and thus, it is the examiner's position that Kensey's occlusive member is releasably coupled to the elongate member by the attachment as recited in claim 1. Claim 9 fails to recite an attachment as argued and thus, it is the examiner's position that the argument is moot with respect to claim 9.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 9, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kensey (U.S. Patent No. 5,061,274). Kensey discloses a locator device (see entire document) comprising an elongate member (38) having a distal opening in its distal region and a proximal opening in its proximal region which are connected by a lumen (for example, see Figure 3), wherein the distal region has a substantially uniform diameter, and a bioabsorbable and expandable occlusion member (20; for example, see column 5, lines 44-45) releasably coupled by an attachment (52) a specific position on the distal region of the elongate member such that it is in contact with the lumen of the elongate member (at the distal opening) and extends distally of the distal opening of the elongate member (for example, see Figure 3), wherein the occlusion member is capable of substantially blocking blood flow out of the blood vessel at a position outside the blood vessel, and wherein the elongate member is capable of being positioned in a blood vessel such that blood can enter the distal opening without passing through the occlusion member (they are separate components).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3773

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
